

Modern authentication setup procedure for MacOS mail for faculty

The version that supports modern authentication is MacOS 10.15.5 or later.

1. Instructions for setting up MacOS mail

- ① Launch the email, click Exchange, and then click Continue.

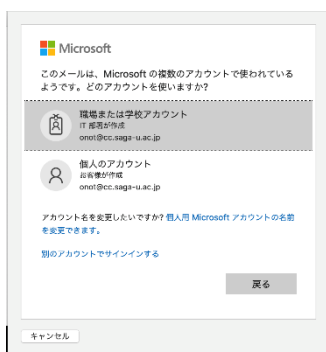

- ② Enter your university email address, User ID@cc.saga-u.ac.jp.

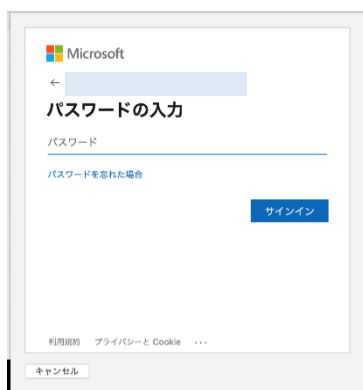

- ③ Click Sign In.

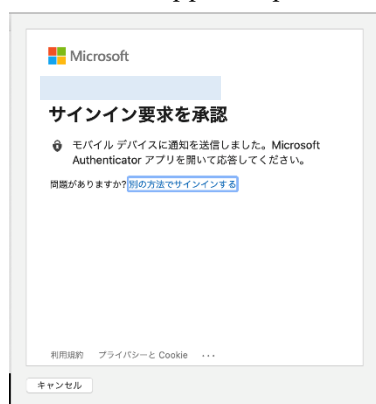

- ④ Click Work or School Account.

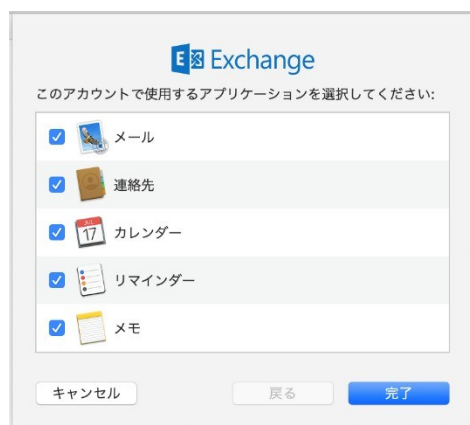

⑤ Enter the password.

⑥ Perform the approval process for Microsoft 365 multi-factor authentication.

⑦ Click Finish.

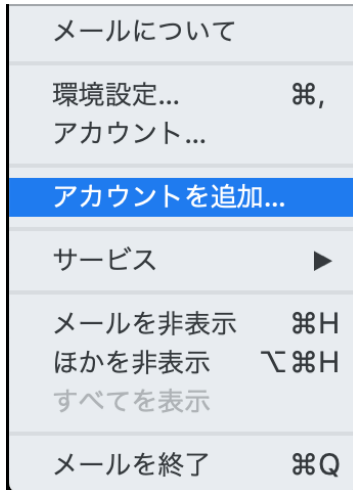

This completes the MacOS mail settings.

2. How to Add an Account

If you want to add an account for user ID@edu.cc.saga-u.ac.jp:

Launch Mail and click Add Account from the File menu. Then follow the steps from "1. Instructions for setting up MacOS mail ①" to add an account.

3. How to Delete an Account

To delete a mail account, start the mail and click Account from the File menu. Then Click the account you want to delete, then click -. Note that the account "Exchange" will be "User ID@cc.saga-u.ac.jp".
