

Becky! Internet Mail Modern Authentication (OAuth2) Configuration Change Procedure

1. Change the existing account for the university email address to Modern Authentication.
Versions 2.75.02 and later support OAuth2.
Start Becky! Internet Mail.
2. Select the mailbox, and then, under Tools, click Mailbox Settings.

3. Change the authentication method to "OAuth 2.0" in the "Basic Settings" tab of the configuration screen.
If the SMTP server (sending) is set to the server (smtp.cc.saga-u.ac.jp of Saga University, the setting of 6 is required.

4. When the OAuth2 provider selection screen appears, select "Microsoft 365".

5. Click OK.

6. The SMTP server is set to the Saga University server (smtp.cc.saga-u.ac.jp):
Under Settings, click the Advanced tab, uncheck OAuth2, and check SMTP Authentication.
