How to Add Outlook Translation Tool for Mac OS
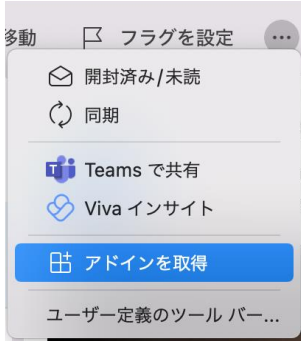

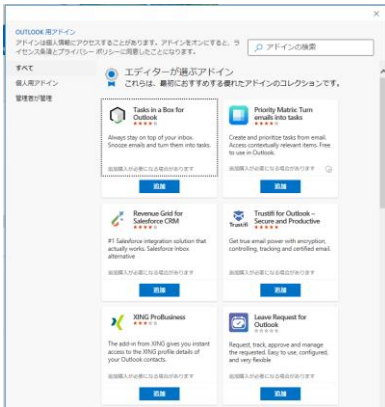

1.In Outlook, in the Vertical 3-point reader, click Get Add-In.

2.The "Add-Ins for OUTLOOK" window appears.

3.In Search, type Translation Tools and click Show All Results.

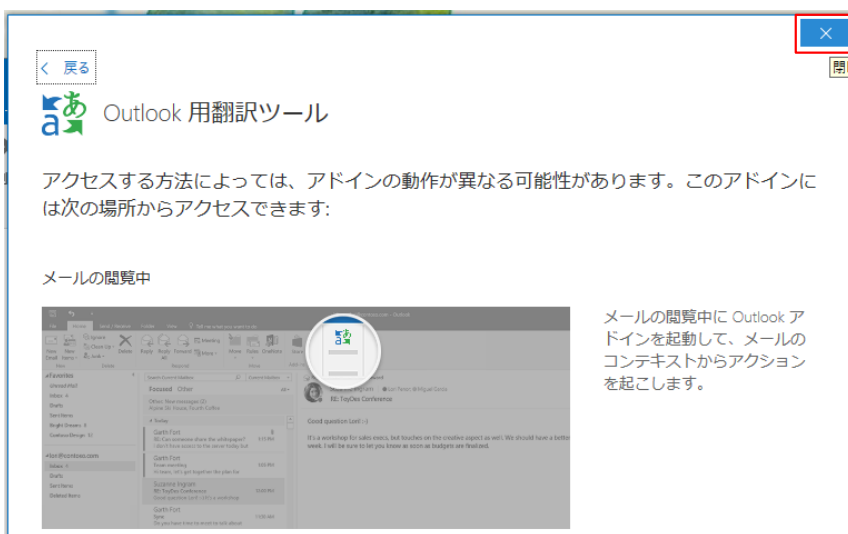

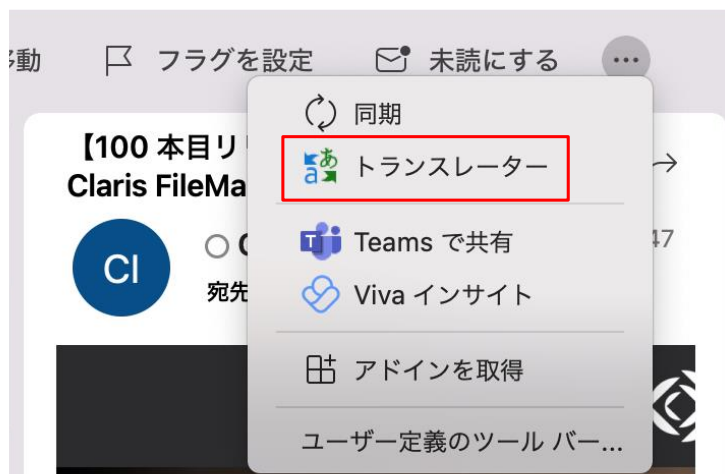

4.Add Translation Tools for Outlook.

5.Click Continue.

6.Click Start.

7.Click to close.

8.A translator has been added to the three-point reader.

9.Open the mail you want to translate, click "Translator" in the "3 point reader", and "Translator" screen is displayed, and the translated mail body is displayed.
