

Disabling Devices Registered in the Microsoft 365 Portal

If a device registered in the Microsoft 365 portal is lost or no longer in use, follow the steps below to disable the registered device.

- In the upper right corner of the Microsoft 365 portal Start screen, under Account Manager, click View Accounts.

- Under Devices, click Manage Devices >.

- In the device list, click the name of the device you want to disable.

- Click Disable lost device to disable the device.
