# How to Install WithSecure on Windows

1. **Before You Begin**

   ① If your laptop already has antivirus software installed, please uninstall it first.
      Note: Laptops purchased through the university co-op do not come with antivirus software pre-installed.

   ② Connect the laptop you want to install WithSecure on to the campus wireless LAN "000saga-u" and make sure it can access the internet.

2. **How to Install WithSecure**

   ① Open your browser (Microsoft Edge), and go to the CNC website:
      https://www.cc.saga-u.ac.jp.
      Click on "Campus-Only Software Download Site", then select "Antivirus Software [WithSecure (F-Secure)]".
      Note: You can only access this site while connected to the campus network.

② When the "Single Sign-On Login Authentication" screen appears, enter your user ID (student ID number) and password to log in.
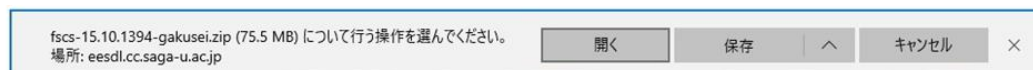

③ When the "Identification" screen appears, click [Next].

④ The WithSecure download page will be displayed.

Select option 5 or 6, then click Download to get the installation file

ウィルス対策ソフトダウンロード

|	ソフトウェア名	ファイル名	
5	[Windows] 学生所有ノートPC用 WithSecure	wscs-16.01.275-gakusei.zip	ダウンロード
6	[Windows] 大学購入PC／教職員所有PC 用 WithSecure	wscs-16.01.275-kyoushokuin.zip	ダウンロード

⑤ Click Open when the "File Options" prompt appears.

⑥ Double-click the downloaded file to begin installation .

⑦　If you see the "Windows protected your PC" screen, click More info.

⑧ Then click Run anyway to start installing WithSecure.

WithSecure installation begins.

⑨ After a short moment, a message will appear asking:
"Do you want to allow this app from an unknown publisher to make changes to your device?"
Click Yes to proceed with the installation.

3.   Confirming Installation

Once the installation is complete, check that the WithSecure icon appears in your PC's taskbar.
