

How to Connect to "000saga-u" Wi-Fi on Windows

- Connecting to "000saga-u" Wi-Fi

To connect to the "000saga-u" Wi-Fi network, first click on "Wi-Fi" and select "Manage Wi-Fi connections."

Next, find and click on "000saga-u", then click the [Connect] button

When prompted for your username and password, enter your user ID (students should use their student number) and password, then click [OK].

When asked whether to continue the connection, click [Connect].

Once you see "Connected, Secure" displayed, your connection has been successfully established.

- To remove the "000saga-u" network setting, right-click on "000saga-u" and select "Forget."
