After configuring the following settings, enter your user ID (student ID number for students) and password, and tap "Connect".

- ➢ EAP method ∶ PEAP
- > Phase 2 authentication : MSCHAPV2
- ➢ CA certificate ∶ do not validate
- > ID : user ID (student ID for students)
- Anonymous ID : No need to enter
- Password : Enter password

If "do not validate" is not an option in the CA certificate, select "Use system certificate" and then Enter "saga-u.ac.jp" in the Domain field.
