# How to Connect to and Remove the "000saga-u" Wi-Fi Settings

Saga University provides a campus Wi-Fi network named "000saga-u."
After changing your password, please remove the existing "000saga-u" Wi-Fi settings and reconnect to the network.

1. Windows OS
    - To connect to "000saga-u," open the Wi-Fi settings, click "Manage Wi-Fi connections," select "000saga-u" from the list, and click [Connect].

Enter your student ID and password when prompted, then click [OK].
If a confirmation message appears, click [Connect] to proceed

Once the message "Connected, secured" is displayed, the connection has been successfully established.

- How to Remove the "000saga-u" Wi-Fi Settings
  To remove the saved settings for "000saga-u," right-click the network name and select [Forget]

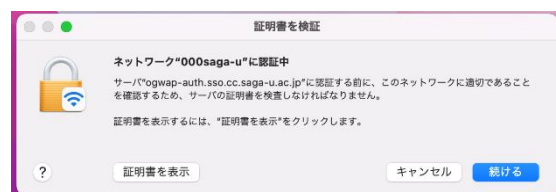

2. Mac OS
   - To connect to "000saga-u" on a Mac, click "Other Networks" in the Wi-Fi menu, then select "000saga-u."

   Enter your student ID as the account name, and your password, then click OK.
   When the "Validate Certificate" screen appears, click [Continue].

   When the "eaptlstrust" screen appears, enter your Mac login ID and password, then click [Update Settings].

When "000saga-u" appears with a blue Wi-Fi icon, the connection has been successfully established.

- Removing the "000saga-u" Wi-Fi Settings
  Click "Network Preferences" in the Wi-Fi menu.

When the "Network" screen appears, if it is locked, click the lock icon to make changes.
Enter your Mac login password, then click [Unlock].

Once network settings can be modified, click [Details] next to "Show Wi-Fi status in menu bar."
In the Wi-Fi tab, select "000saga-u" and click the minus sign (−) to remove the network.
When "000saga-u" disappears from the list, click [OK].

Return to the Network settings screen and click [Apply].

3. iPhone/ iPad

To connect to "000saga-u" on an iPhone or iPad, open "Settings" and tap "Wi-Fi."

Select "000saga-u" from the list.

When the password entry screen appears, enter your student ID and password, then tap [Join].

When the "Certificate" screen appears, tap [Trust]. Once "000saga -u" is checked, the connection is complete.

- Removing the "000saga-u" Wi-Fi Settings

  To remove the "000saga-u" settings on an iPhone or iPad, open "Settings" and tap "Wi-Fi."

 Tap "000saga-u," then tap "Forget This Network."

4. Android

To connect to "000saga-u" on an Android device, open "Settings" and tap "Wi-Fi."

Select "000saga-u" from the list.

Configure the following settings, then enter your student ID and password, and tap [Connect].

> EAP Method：PEAP
> Phase 2 Certification：MSCHAPV2
> CA Certificate：Use system certificates
> ID：Enter your student ID
> Anonymous ID: Leave blank
> Password: Enter your password

Once "000saga-u" shows as connected, you are successfully connected.

If you are unable to connect to "000saga-u" after completing the above settings, please contact the Computer and Network Center (CNC) for assistance.

- Removing the "000saga-u" Wi-Fi Settings
  To remove the "000saga-u" settings on an Android device, open "Settings" and tap "Wi-Fi."
  Press and hold "000saga-u," then select "Forget network."
