eduroam Usage Guide

What is eduroam?

eduroam (education roaming) is a global wireless LAN roaming service that enables mutual access to campus Wi-Fi networks among universities and research institutions.

In Japan, eduroam is operated under the initiative of the National Institute of Informatics (NII) as part of the eduroam JP framework.

Saga University has been a participating institution in eduroam since April 2017.

Who Can Use eduroam?

✓ Faculty, staff, and students of Saga University can use Wi-Fi at other eduroam-enabled institutions when visiting.

✓ Visitors from other eduroam-participating institutions can access Wi-Fi at Saga University.

Saga University Members Visiting eduroam Institutions

If you are a faculty member or student of Saga University visiting another university or research institution that participates in eduroam, please follow the steps below to connect to the eduroam wifi connection.

Connection Instruction

1. Connect to a Wi-Fi network with the SSID: eduroam or eduroamXXX (where "XXX" may vary by institution).

2. When prompted, enter the following credentials:

    ・**Username**: Your Saga University email address
    Faculty / Staff：userID@cc.saga-u.ac.jp
    Students：studentID@edu.cc.saga-u.ac.jp

    ・**Password**: Your Saga University password

Additional Information

1. If you are unable to connect using the above instruction, please refer to the eduroam JP user guide: https://www.eduroam.jp

2. Saga University members can also use eduroam on campus. However, please note that this is treated as an external network connection.
    For regular on-campus use, we recommend using the Opengate wireless LAN service.

3. For a list of eduroam-participating institutions in Japan, please refer to the "Participating Institutions" page on eduroam JP

Visitors from eduroam Member Institutions

Users affiliated with eduroam member institutions can connect to the eduroam wireless LAN at Saga University using their institutional eduroam credentials.
Connection Steps:

1. Select the SSID: eduroam from available Wi-Fi networks.
2. When prompted, enter your credentials:

    ・Username: Your home institution's eduroam account
    ・Password: Your home institution's eduroam password

Visitors from Non-eduroam Institutions

If you are visiting Saga University for a seminar, workshop, or other event, a guest eduroam account may be issued at the reception desk.
Please inquire at the event reception for details regarding guest account availability.
